800° WOODFIRED KITCHEN

OUR STORY

800° Woodfired Kitchen is chef Anthony Carron's inspired take on the art of cooking with wood fire. Cooking over wood not only creates delicious and craveable flavors, it is the healthiest cooking method utilizing no added fats or oils. Woodfired cooking has the additional benefit of being carbon-neutral and therefore good for the environment.

Let us cater your next office meeting, game day, party or celebration with an outstanding selection of woodfired goodies including our famous pizzas, rotisserie sandwiches, hearty salads and power bowls.

CLEAN EATING PROMISE

We believe food should nourish the body and the soul, while respecting our shared environment. To that end we practice the following:

- Careful sourcing of our ingredients
- Local and Organic whenever possible
- We only cook with Extra Virgin Olive Oil
- Vegetarian, Vegan and Gluten-Free options

ORDERING & DELIVERY

Please email or call our Catering Specialists at catering@800degrees.com or **858-621-1591** and they will carefully coordinate your event. Although we ask for 24-48 hours notice, we always do our best to accommodate last minute orders so please don't hesitate to ask!

For orders of \$70 or more, we offer catering delivery within each restaurant's immediate area for a nominal fee. We will work with you to coordinate a delivery time window. Giving us advance notice will help ensure delivery at your desired time. Please check with your Catering Specialist to see whether your address falls within our delivery zone, or to coordinate a pick-up. We provide all serving ware including plates, napkins, and utensils free of charge. Gratuities are never expected but always appreciated.

We understand that plans change and meetings get cancelled. No problem! If you give us at least three hours notice, there is no charge. Cancellations within three hours of pickup or delivery will be charged 50%.

Ingredients are subject to availability, a suitable substitution may be made if necessary.

Allergy Warning: Although efforts are made to avoid cross contact of allergens, we cannot guarantee that food items will not inadvertently come in contact with one another during preparation.
